

COVID-19 VACCINATION

IS THE BEST WAY TO HELP PROTECT CHILDREN AGAINST SEVERE COVID-19

COVID-19 VACCINES are now available and recommended for **children 6 months and older**. With children in school, COVID-19 vaccination is the best way to help protect them from severe illness.

Just like adults, COVID-19 can cause long-term health problems, hospitalization, and even death in children with or without underlying health conditions. Children who have previously had COVID-19 should still get vaccinated, as vaccination offers added protection.

*Pit River Health Service, INC has extended vaccination hours available to accommodate you and your child's busy schedule. Wednesdays and Fridays, we are open until 6pm. Or, you can join us on **September 10 & 17th** between 10a - 2p at the Safeway parking lot. Our mobile clinic will be offering CoVid-19 vaccinations. **Get a free gift bag and gift card when you get your vaccine.***
